Not able to capture image while generating pdf using puppeteer API

Asked 3 years, 2 months ago Active 8 months ago Viewed 3k times

Node- v8.11.1 Headless Chrome

Im trying to generate PDF but somehow the background image is not captured in the PDF. Below is the code. Any help is appreciated

```
const puppeteer = require('puppeteer');
(async () => {
  const browser = await puppeteer.launch({headless: true});
  const page = await browser.newPage();
  await page.goto('http://54.201.139.151/', {waitUntil : 'networkidle0'}
  await page.pdf({path: 'hn40.pdf', printBackground: true, width: '1024p
  await browser.close();
})();
```

As Rippo mentioned, [you require](#) `page.emulateMedia("screen")` for this to work properly. I have updated your script below, but I changed the page to google for testing.

```
const puppeteer = require('puppeteer');
(async () => {
  const browser = await puppeteer.launch();
  const page = await browser.newPage();
  await page.goto('http://google.ca/', {waitUntil : 'networkidle2'})
  await page.emulateMedia('screen');
  await page.pdf({path: 'hn40.pdf', printBackground: true, width: '1
  await browser.close();
```
